SAKE

WINE | BEER

WINE

Sept 2022

## SAKE

The production of sake is a Centuries old Japanese tradition that involves the brewing of polished rice, water, and koji (which facilitates the fermentation process and is also used in other fermented goods like miso paste).

Unlike wine, sugar is not used in the fermentation process (which is, in fact, more like the process of brewing beer!). Sake is a multi-layered and complex drink, and can often present beautiful shades of acidity, umami, and flavor notes from fruity to herbaceous and floral. Depending on the sake and individual preference, sake can be served chilled, at room temperature, or warm...

**Our cold sake is served by the cup (4 oz), while hot sake is served by the carafe (4 oz or 8 oz). Bottles are also available for purchase**
